

Anti-Seismic Barrelrack

(225L-300L)

- New metal barrelrack with anti-seismic properties and stacked traditional style.
- Can be stacked up to 6 tiers high.
- The racking and washing work in the cellar is more efficient due to its characteristics, the lower part of the barrels is completely free to allow the entry and exit of the washing and waste collection elements without uncontrolled spills.
- The barrelrack allows the incorporation of wheels to facilitate the rotation of the barrel on the same support.

TECHNICAL CHARACTERISTICS (225L)

Exterior dimensions (length x width x height)

1500 x 680 x 780 mm.

Weight

37 Kg/Unit.

- Manufactured in high-quality steel and welded with high-fusion wire.
- Epoxy Paint in any colour from the RAL colour chart.
- Galvanized or bichromated.
- Degreased, phosphate-coated and mineralized water treatment.
- 300-400 hrs resistance in a saline fog.

- There is no physical contact between the iron and the barrel, a rubber profile covers it avoiding damage to the wood and preventing slippage between the support and the barrel.

- Stable and safe displacement with forklift.

- Its staggered hooking and triangle-formation stacking to oscillate without falling.
